

EXTRA WALL BED

design Piero Lissoni

Letto con testata e giroletto in legno di pioppo e abete tamburato con imbottitura in poliuretano espanso a densità differenziata. Foderina realizzata in fibra di poliestere con agotrattamento e resinatura, accoppiata con supporto di vellutino poliammidico. Telaio giroletto in acciaio verniciato con polveri epossidiche colore nero per montaggio letto e supporto rete. Foderina coprirete in cotone 100%, col. ecru, fissata alla rete stessa tramite velcro (disponibile solo per reti a listino e fornite dall'azienda).

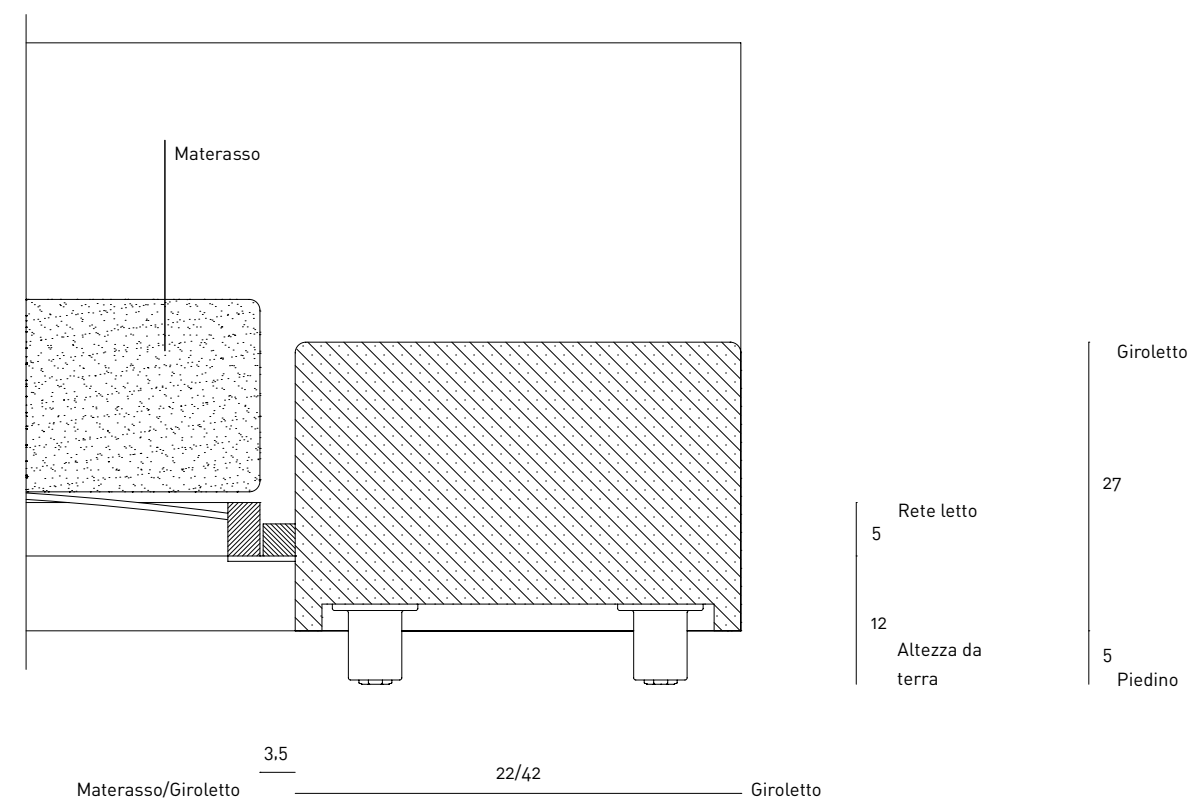

Rivestimento in tessuto o pelle; la sola versione in tessuto è interamente sfoderabile tramite velcro a strappo.

Piedini in PVC nero con regolabili.

Predisposizione per inserimento di rete a doghe, dimensioni previste:

- 160×200cm oppure (2) 80×200cm
- 180×200cm oppure (2) 90×200cm
- 200×200cm oppure (2) 100×200cm

Sezione Letto

Note

A richiesta può essere fornito un distanziale che avvitato ai piedini esistenti alza gli elementi di 4cm.

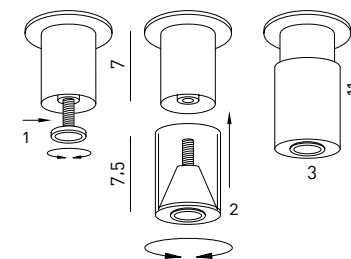

Nell'ordine precisare il posizionamento desiderato delle guide laterali: la testata da 125/135/145cm è sempre dal lato della guida larga da 42cm.

Nell'ordine precisare l'esatto posizionamento dello schienale alto e basso, altrimenti l'ordine verrà evaso come da disegno tecnico.

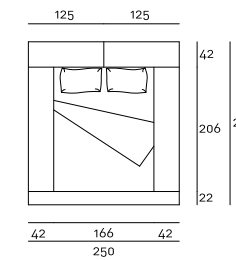

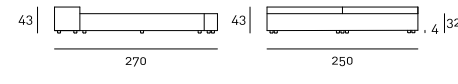

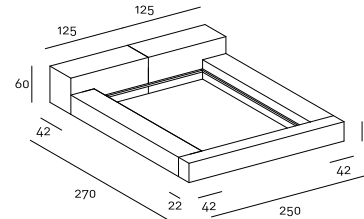

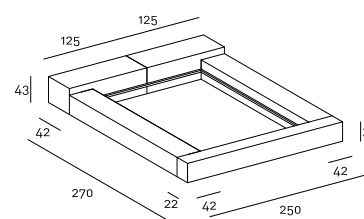

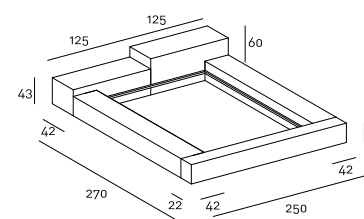

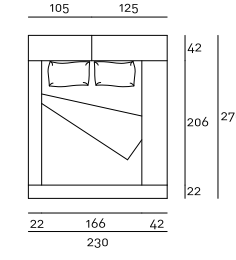

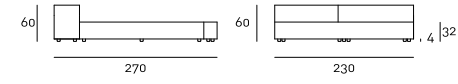

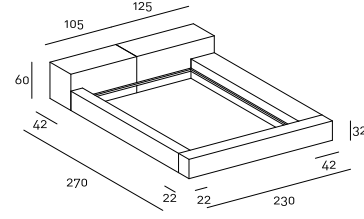

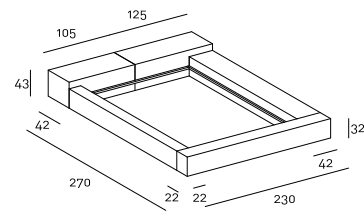

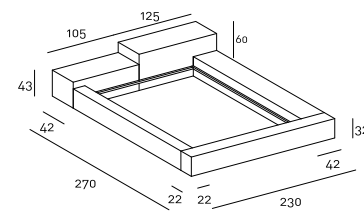

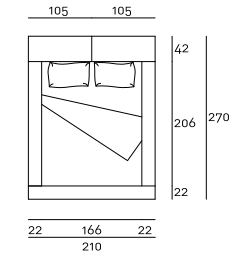

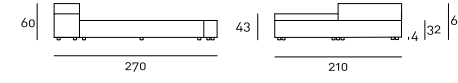

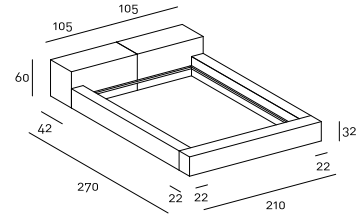

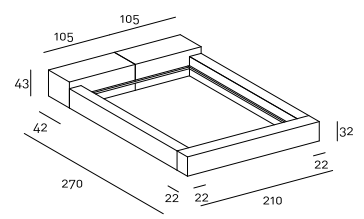

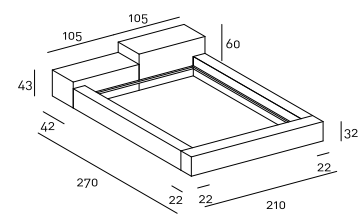

Si prega di allegare all'ordine uno schizzo di massima della configurazione richiesta.

Per reti e materassi non forniti dall'azienda, inoltrare le specifiche tecniche.

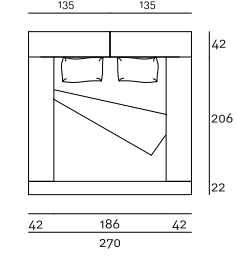

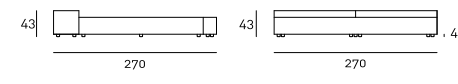

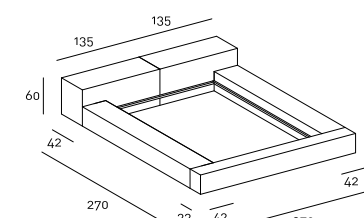

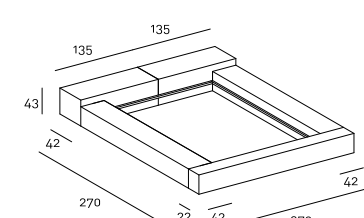

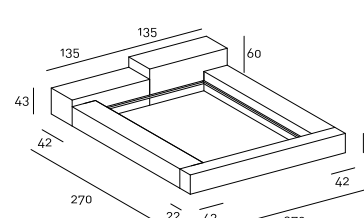

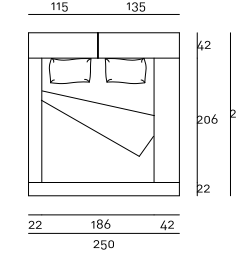

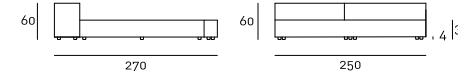

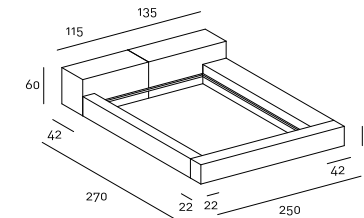

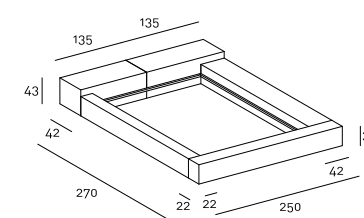

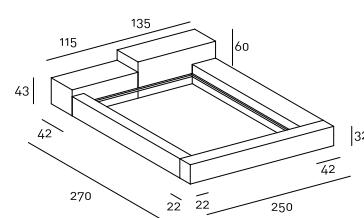

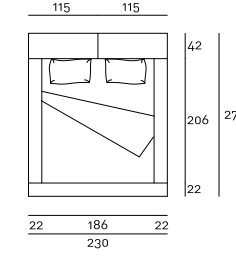

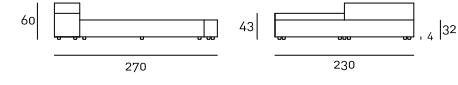

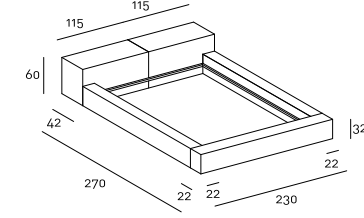

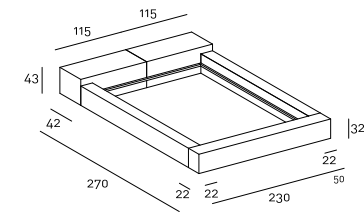

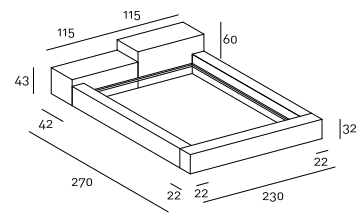

Per reti letto e materassi, fare riferimento al listino prezzi.
