

LIVING DIVANI EVENT AT VASTUHOME JAKARTA

18-19 February 2014

The **Living Divani** world of formal purity is in the spotlight on **18 and 19 February** in **Indonesia**, at its presentation event for the press and architects, hosted by **Vastuhome**, brand partner in **Jakarta**.

Living Divani is a reference point on the furniture design scene due to the perfection, harmonious proportions and sense of understated luxury of its upholstery. The company tells about itself through some of the most representative pieces, designed over the years by **Piero Lissoni**, who has been orchestrating its unique style since 1988 in his dual role as art director and designer, as well as complements created by **David Lopez Quincoces**, **Victor Vasilev**, **Nathan Yong** and **Victor Carrasco**, designers with very different roots and visual codes but sharing the same approach to design, all recently invited by the company to participate in the creation of a complete living environment, both for home and contract.

Signed by *Piero Lissoni*, and featuring his unmistakable pure lines, are **Rod XL** sofa and **Rod** armchair, which offer the possibility of choosing different coverings for the shell and cushions, creating striking two-tone effects and captivating combinations of different materials. **NeoWall** seating system gives priority to the proportions of the individual elements and their overall harmony, playing on their asymmetry; **Extrasoft**, the informal-looking modular sofa that offers comfortable, cosy seats, joined together to create regular geometrical forms; **Chemise** with its soft, snug lines, casting a knowing wink at the classic sofa, and **Family Lounge**, an island haven, the perfect spot for thinking, reading or chatting.

Young interior designer *David Lopez Quincoces*, who works in Milan and Madrid, brings us **Track** bench, with its essential, broad, regular shapes and stunning finishes, while **B2** coffee table reflects the constructivist approach of *Victor Vasilev*, a Bulgarian-born architect who lives and works in Milan: the varying heights of its table tops offer a different perspective from each new angle. *Victor Carrasco* from Valencia is the creator of **Strato** coffee table, with its multiple contoured tops assembled by a central spacer ring, while circular **Bolle** coffee tables and **Off Cut** bookcase – made by piecing together bits of solid wood, the off-cuts from processing other items of furniture – are both the work of Singaporean designer *Nathan Yong*.

Culture, sensitivity and a range of different experiences are interwoven in Living Divani products, reflecting a shared philosophy: aesthetically impeccable objects featuring quality materials, luxurious finishes, and great comfort, for a living space that is minimal, but abounding with atmosphere.
