

## LIVING DIVANI FURNISHES THE NEW LUXURIOUS MURABA'S RESIDENTIAL COMPLEX IN DUBAI

Reference point in the design furniture scene due to its calibrated design and the soft comfort of its upholstered products, **Living Divani** participates in the creation of the new **Muraba Residences Palm Jumeirah in Dubai**.

The project, located on the artificial island of Palm Jumeirah, designed by the prestigious Spanish Studio **RCR Arquitectes**, recognized in 2017 by the **Pritzker Prize**, the most important international architectural award.

Overlooking the Persian Gulf, with the view on one side on the Burj Khalifa and on the other side on the Atlantis - two landmarks of this city - the futuristic residential complex counts 46 apartments and 4 penthouses with the view on the skyline of the city, it's a true corner of paradise with details and precious finishes, all **Made in Italy**.

The **perfection, harmonious proportions and understated luxury style** of this exclusive Brand has been chosen to furnish the penthouses and some apartments, in cooperation with the new **Living Divani's available exclusively at Le Cercle, in Dubai Design District (d3) building 1**, one of the major player in the furniture scene in the Middle East.

1,364 m2 of windows make the building a bright set for Living Divani products; in the penthouses, the living area is furnished with the iconic sofa **Neowall** by **Piero Lissoni**, characterized by regular geometries but from irregular contours, presented in a configuration with asymmetrical armrests. Combined with the sofa, some large **Extrasoft** poufs, also designed by **Piero Lissoni**, to form an archipelago dedicated to a flexible and tailor-made relaxation and the armchairs **Box**, an highly appreciated model thanks to its modernity, charm and simplicity. To completion, the coffee table **Plane** by **Massimo Mariani**, composed by two tempered glass panels, encasing a slanting slab either of solid walnut or Carrara marble.

Living Divani is also protagonist of the night area; the daily rest is entrusted, in the master bedroom, to the **Extrasoft bed**, design **Piero Lissoni** where the mattress area is surrounded by a perimeter of soft, regular volumes embellished with stitching, granting a desire to relax, showing at the same time energy and personality. In the guestrooms, have been chosen **Chemise Bed** by **Piero Lissoni**, emblem of the gracefulness and design of the Company, not to renounce to the Living Divani's comfort event at night and **Avalon Bed**, design by **Eero Koivisto** that features a sleek design made up of sinuous contours.

The terraces are elegantly furnished with some **Ile Club Daybed**, design **Piero Lissoni**, that find here their right expression in order to assure relaxing moment characterized by a refined comfort.

The elegance and the purity of the choices made for the Penthouse are declined, thanks to a similar choice of products, even in the apartments.

As absolute protagonist of the living area, we find the **Neowall** sofa, a seating system which prefers the proportions of the individual elements and the harmony of the set; these characteristics are kept even in the **Neowall Bed** version, used to furnish the night area in combination with **Avalon Bed** that adds a glamour touch to the resting room.

The Living Divani collection is conceived as well for the **Contract sector**, where quality, technical performances and custom-made solutions qualify the Company to be active globally in different fields: offices, banks, airports, hotels, waiting areas, museums, restaurants and showrooms.

The project will be officially presented to the public during the **Dubai Design Week**, a reference event for the world of furniture in the Middle East, which will take place from 13 to 18 November in the **D3**, the new District entirely dedicated to the design world.
